

eCommunication package is the eDynamic package where we have added the **News Letter Management – eNews Letter**.

The eNews Letter is a powerful newsletter publishing and marketing software that will allow you to design easily HTML and text based newsletters, and deliver personalized emails to your target audiences through mailing lists.

Newsletters are one of the most powerful and cost effective marketing tools today and the eNews Letter system comes packed with everything you need to get the most out of this powerful marketing channel.

A statistical interface is the perfect tool for small and medium size sites looking to boost their revenues by getting the most out of an e-mail newsletter!
